Let's see if there is a limit on participants, then whether CPSC has any odd restrictions, and go from there. It is fun to go, but honestly, I don't know why I would absolutely need to. So we can decide who really must go if we have a limit. Agree that at least 1 person from CPSC could be added if everything else works out.

I was looking at [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] web site and it looks like they make a special product for playgrounds, called [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] It would make sense for CPSC to go, I think. However, keep in mind that we will be planning another visit to a larger processor, probably [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] but that will be a [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] I know there is excitement and interest but this won't be the only opportunity. We also could ask the folks from the synthetic turf meeting to identify other processors that are more local than [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] My 2-cents

Good question about CPSC. If we decide to invite them, we can ask. For [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] there was a limit because of safety and just managing the group in the plant. Maybe this isn't an issue here. If you ask Ted about the size of the group, you could also ask about playground material.

Fred will be on leave the first week of May. I will ask him about May 12. Tom Burke, or AA, may also interested in going. But his schedule changes often so we should work around him.

We could also include OCHP and OPPT, but let's check how many people can go first. OK?

I'll check with Ted regarding any number limitations on his end. To me, it seems like the only requirement might be to keep the size manageable so as to have more of a working meeting dynamic. I was thinking around 15 maybe, but let's see with Ted. Just to mention, as of now, we are mostly looking at April 29, and for April 29, it looks like as of now, we would have around 9 or 10 of us. The other date with most votes is May 12, but Fred declined that one, and so have you. I wasn't sure whether for both of you, that was more because of not being entirely sure that far in the future, or definitive?

Also, would CPSC have any applicable requirements, though, akin to open public meetings?

If you wouldn't mind and it is ok with Nicole, it could be worth asking if we want to extend an invitation to CPSC. I'm not sure how many people the trip can accommodate though. You might already have enough people going.

Just so you know my schedule, those weeks are my daughter's exams at college. We don't yet know which day she will get out, but I will have to go and get her and her stuff during that time. So don't work around my schedule. Once I know when I have to take off, I will see if I can join in the trip.

Thanks.

Jackie

I am wondering how broadly we should share this. I sent it to Fred, my own IOAA in ORD, and to Kent Thomas. Kent won't go, but CPSC people are nearby. We could share this with them, but I wanted to check to see if there is a limit to the number of people we can bring. Also, do you think these facilities sell to playground manufacturers? If we think they do, and if there is room, we can share with CPSC. Otherwise, I'm not sure who else to include, but if you have suggestions, let me know. Thanks.

Jackie

Hi all,

As part of the federal action plan on the use of recycled tire crumb in sports fields, we will be touring the main processing plant in Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]. We will be seeing the full tire recycling process from receiving the whole scrap tire to grinding it down into crumb rubber for sports fields and asphalt modifier.

Please respond to the Doodle poll so we can lock down the date for the tour Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Thank you,
Ksenija
